What's in a name? *Everything!*

But, don't take our word for it ...

"When needing a GPS-IFR network for our customer in Tennessee, we turned to Hickok & Associates. We now have a low altitude helicopter IFR network with 16 WAAS IFR approaches & departures. The system is accessed by 4 IFR bases, coordinated with ATC and FAA Next-Gen offices, and yields efficient/reliable IFR-HEMS operations."

Peter Patton
Program Aviation Manager,
Nashville, TN
Air Methods Corporation

Hickok...

...the name that is synonymous with Helicopter GPS IFR.

The original pioneers that turned vision into reality...

... and have continued originating new capabilities for your future.

First...

- ✓ GPS approach ever approved
- ✓ Non-fed developer of procedures
- ✓ Procedure Evaluation Pilot
- ✓ Flight Validation Pilot
- ✓ 100% Turnkey service provider

(We don't need to contract for FAA services; our customers do not have to sign FAA agreements)

WAAS LPV first & only... since 2008!
Departures 'real' departures... since 2009!
IFR Networks 2,000+ miles in use
Maintenance 150+ procedures enrolled

(We maintain procedures developed by us, and by others; 50+ procedures have been transferred to us from FAA)

**We will never misrepresent our accomplishments or capabilities.
We lived it- did it- and continue to do it better everyday.**
